Dialogue

Learn how to talk about conserving energy at work.

Afan

Jinna

Do you know that our company has to pay \$70,000 on **expenses** for our annual water and electricity **bills**?

Really? That's a huge amount of money.

Yeah. I think it's because of our bad habits of going home and not turning off the lights.

I agree. Sometimes, I can't even find where the light **switches** are.

I passed by our company at 3 a.m. after my night out last week, the lights were still on.

I think our company should install **sensors** and **thermostats**.

That is a great idea.

Yeah. I will **propose** that to our manager.
